

MEDICARE SUPPLEMENT

Newly-Accepted Health Conditions

Standard II and III Conditions	
Angioplasty	Chronic bronchitis
Atherosclerosis or arteriosclerosis	Any other chronic lung or respiratory disorder requiring the use of oxygen
Peripheral vascular disease	Diabetes with neuropathy
Carotid artery disease	Diabetes with retinopathy
Coronary artery disease (CAD)	Diabetes with vascular disease
Angina	Myasthenia gravis
Cardiomyopathy	Systemic lupus
Stent placement	Hepatitis other than hepatitis A
Heart valve surgery	Cirrhosis of the liver
Atrial fibrillation	Other liver disease
Irregular heartbeat	Cerebral palsy
Cardiac pacemaker	Parkinson's disease
Implantable or subcutaneous defibrillator	Dementia
Transient ischemic attack (TIA)	Senility
Chronic obstructive pulmonary disease (COPD)	Alzheimer's disease
Chronic obstructive lung disease (COLD)	PSA levels greater than 6.0
Emphysema	

MEDICARE SUPPLEMENT

Underwriting Process Changes

Determining your applicant's eligibility is easy!

- > Applicants can still be approved for Preferred and Standard rates through underwriting
- > An applicant's rate will be the Standard II or Standard III rate if:
 - an applicant's answer to any of the questions in Section VII, Part B of the application is 'yes';
 - their weight is outside the allowable ranges for the Preferred and Standard tiers as defined in the build chart;
 - or their weight is above the allowable range for selected conditions¹.

Height and weight will no longer be used to decline coverage!

1. Selected conditions include tobacco use, diabetes, or maintenance medications for heart and vascular conditions.

BUILD CHART

HEIGHT & WEIGHT GUIDELINES

Applicants whose weight is outside the limits in the build chart are generally considered uninsurable.

FEMALE				MALE		
Min. Weight	Max. Weight for Preferred Plus Class*	Max. Weight for Other Classes	Height	Min. Weight	Max. Weight for Preferred Plus Class*	Max. Weight for Other Classes
77	145	158	4'6"	85	149	166

Note: If the client's height is not included on the chart, please call Underwriting at 866-825-4822.

* Preferred Plus class rates are not available for Medicare Supplement in all states. Please check your state's Outline of Coverage for availability. Not Applicable to Loyal Protection Plus.

MEDICARE SUPPLEMENT INSURANCE

Declinable drug list for American Retirement Life, Cigna Health and Life and Loyal American Life Insurance Companies

X indicates that the drug will result in a decline. Make sure to list ALL medications on the application. Prescription medications may be used for multiple reasons. ALWAYS determine how the medication is used. Insurability is based on the conditions listed on the actual application. There may be additional medications and conditions not listed that could result in a decline. If the applicant is currently taking, or has recently taken, a medication in this list for a use that is NOT listed on this application, we will REQUIRE a SIGNED and DATED letter from the prescribing physician. This letter MUST state the condition for which the medication is being taken AND must state that the applicant does not have the declinable condition on this list. Failure to include this letter WITH the application may lead to the declination of the application.

Please note that the underwriter will make the final determination in all cases.

Drug Name	Use	Exceptions	Preferred and Standard	Standard II and Standard III *
Abacavir	AIDS		X	X
Abatacept	Rheumatoid Arthritis		X	X
